## ***BETWEEN***

### **BUREAU OF INDIAN AFFAIRS**

## ***AND***

### **BUREAU OF INDIAN EDUCATION**

#### **I. BACKGROUND**

In 2013, the Secretary of the Interior approved a realignment of Indian Affairs (IA) administrative support functions to achieve the highest levels of organizational efficiency and effectiveness and enhance the quality of life for American Indian and Alaska Natives through optimization of the organization's existing resources. In February 2016, the Bureau of Indian Education (BIE) began executing its approved reform and realignment, including the establishment of a BIE Safety Office within the School Operations, School Facilities Division. The goal of the realignment is to balance necessary policy oversight by Headquarters (Deputy Assistant Secretary - Indian Affairs (Management) (DASM)) and local control of day-to-day administrative functions, as well as equip the BIE with the capacity to perform school safety and health inspections and be responsible for necessary remediation of issues identified by these inspections. Until the BIE builds its internal capacity to perform annual safety and health inspections, the BIE will rely upon the support and assistance of the Bureau of Indian Affairs (BIA) to provide this critical service.

#### **II. PURPOSE**

The purpose of this Service Level Agreement (Agreement) is to set forth the terms and conditions between the BIA, BIE and DASM for the effective implementation of the Indian Affairs Safety and Occupational Health (SOH) Program. Specifically, this Agreement outlines the Indian Affairs SOH Program and defines the roles, responsibilities, and functions of the BIA and BIE in providing safety services to the 184 BIE-funded schools throughout the Nation.

Indian Affairs recognizes the importance of Indian education in our Nation. It is understood that, in addition to high quality educational services, school operations support services required to maintain the classroom and facilities themselves play a pivotal role in the success of students attending BIE-funded schools. To this end, the BIA and the BIE are committed to working cooperatively in providing the specialized safety services required to provide students a quality education in a safe and secure environment.
